Experience

CAPCO **10/2018 – now** **Senior Software Engineering Consultant** **FT**

I've worked as an external consultant, contributing to prominent banks across the DACH region and France. Firstly, I contributed as an Angular developer developing mortgage calculator app for a Swiss bank. Progressing to a role as a Java developer at major German bank, I developed internal web app for monitoring systems integration.

The most demanding engagement was with a French bank, focusing on the migration of data from acquired bank systems to their cloud. Additionally, I was responsible for tech interviewing, mentoring junior colleagues, and occasionally providing tech leadership.

LOPUCH, s.r.o. **10/2017 – 09/2018** **Java / BPM Developer** **FT**

As a junior developer, I focused on Java and Spring Boot development of an application managing payouts for diverse authors. In my second role as an external consultant, I supported companies by implementing executable BPM and designing UIs using Oracle BPM technology.

LITA **08/2015 – 07/2016** **Junior Data Engineer** **PT**

I developed web crawlers to extract data from public websites, integrating it with internal sources using PHP and Ruby scripts for reporting purposes.

Skills

Data Engineering	Scala, Python, Apache Spark, Airflow
Backend Development	Java SE 8+, Spring Boot, Node.js, REST
Web Development	Java / Typescript, Angular, PHP, HTML + CSS
Databases	SQL (Oracle, PostgreSQL, MySQL), NoSQL (Elasticsearch)
Cloud	AWS (Glue, Athena, S3, Lambda)
Team & People	Tech Interviewing, Leadership, Mentoring, Client Facing. Teamwork

Languages

English (C1)	Slovak (native)	Russian (A2)
--------------	-----------------	--------------

Certifications

Certified Professional Java SE 8 Programmer	Oracle, 2021
High Advanced English Proficiency	International Language Academy of Canada, 2017
SAS Enterprise Miner 1: Basics	SAS, 2015

Education

Slovak University of Technology, Faculty of Informatics and Information Technologies	2012 – 2017
High School of Electrical Engineering	2008 – 2012
